# BSAT Workshop

## What is BSAT?

The Basic Sustainability Assessment Tool (BSAT) simplifies sustainability for any business. This free, online platform evaluates performance across ESG factors: **environmental impact** (climate change, resource management), **social responsibility** (labor practices, community engagement), and **governance** (ethics, transparency).

## UN1TY's BSAT Workshop: Fast, Efficient and Actionable

Designed to help you get the most out of BSAT. In just 2.5 hours, we'll guide you through the platform, facilitating discussions with all relevant stakeholders in the room. Here's how it works:

1. **Structured Discussion:** We'll systematically explore each of the 12 sustainability facets within BSAT, facilitating discussions with key personnel to gather accurate information.
2. **Collaborative Completion:** Based on the discussions, we'll work together to complete the BSAT tool, providing a clear picture of your current sustainability standing.
3. **Actionable Outcomes:** Get your ESG score and a roadmap for improvement, with a developed action plan.

## Benefits for your Business

Kickstart your sustainability journey

Establish a baseline ESG assessment

Gain actionable insights for improving your ESG score

Develop a unified language for discussing sustainability

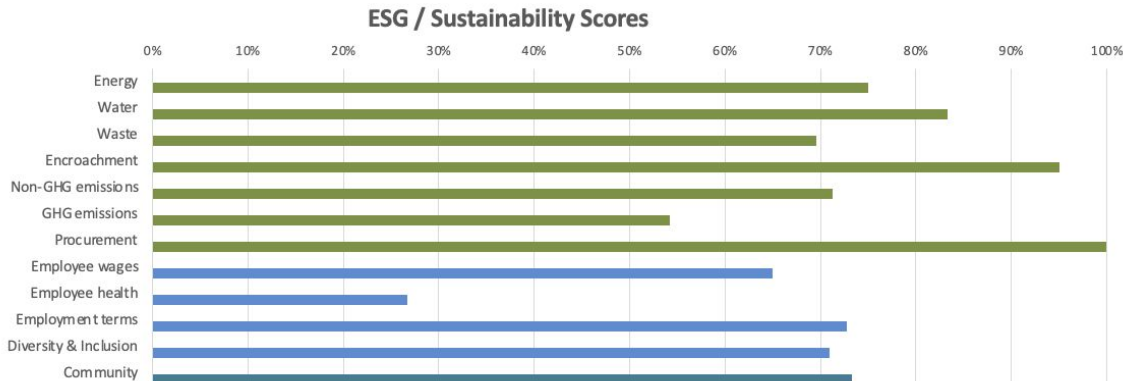

## Workshop Details

- 1x 2.5 hour BSAT workshop
- Completed BSAT assessment with ESG scores
- Action plan with assigned owners and deadlines
- Follow up meeting to discuss action plan and next steps

# ESG Scoring

Once the BSAT has been completed, gain a unique perspective on your sustainability efforts through various scoring options and assessment graphics.

- **ESG Score:** This translates your performance into a science-based metric for core sustainability issues.
- **SDG Scores:** See how your organisation contributes to the UN's 17 Sustainable Development Goals (SDGs) by aligning your ESG performance with the most relevant goals.
- **Non-Financial Capital Scores:** Measure your impacts on the three pillars of sustainability: natural capital, human capital and social capital.
